

## Autumn Programme Offer September - December 2018

Targeted Programmes is a part of Hillingdon Council's *Early Intervention, Prevention, Special Education Needs and Disabilities Services*. We are located within the Social Care Group's Children and Young People's Services division. We work with families and individual family members on an early-support or post-statutory intervention basis, to enable their progression towards positive:

- **Civic Outcomes** - addressing anti-social and offending behaviours
- **Democratic Outcomes** - addressing political disengagement and extremism
- **Economic Outcomes** - addressing unemployment and financial deprivation
- **Educational Outcomes** - addressing academic disengagement and exclusion
- **Familial Outcomes** - addressing family dysfunction and child safeguarding
- **Health Outcomes** - addressing dietary, emotional, physical, sexual health and substance misuse-related concerns
- **Social Outcomes** - addressing social exclusion and isolation

We deliver a range of personal development programmes that support family members to manage any challenges they may face, so they can overcome barriers to their progression and fulfil their potential. Our programmes can be delivered alongside social care interventions on a complimentary basis, or provide 'step-down' support for family members who are coming to the end of their involvement with statutory services. Targeted Programmes also respond to 'step-up' intervention requests from universal service providers including schools, early years, play, youth, and community service providers in Hillingdon who have identified individuals and families in need of early support. We welcome referrals from social care, health, employment, community safety, and education agencies from across the public, voluntary, and faith sectors in Hillingdon.

During the Autumn 2018 delivery period, Targeted Programmes will provide a range of personal support and development programmes for children aged between 7 and 9, adolescents aged between 10 and 19, young adults aged between 20 and 24, and adult parents, guardians, and carers who will benefit from targeted early support. Our priority target groups include families who are subject to Child in Need and Child Protection Plans; children and adolescents who are at risk of, or in, Local Authority care; young care leavers; young people at risk of disengagement or exclusion from education and

employment; adolescents and young adults engaged in anti-social or offending behaviours; and those who have additional support needs in relation to substance misuse, or their emotional, physical, or sexual health and wellbeing.

Targeted Programmes are delivered without charge to the service user or referral agent, and are undertaken on a voluntary basis by service users. We therefore require that all referrals are discussed with the relevant family members in advance, to ensure their informed consent and voluntary participation in our programmes.

Details of all Targeted Programmes on offer during Autumn 2018 are provided in this document but, if you require more information about any elements of the Targeted Programmes programme offer, or want to discuss how we can support a family or family member that you are working with, please telephone 01895 556 300, or mail: [targetedprogrammes@hillingdon.gov.uk](mailto:targetedprogrammes@hillingdon.gov.uk) - we'll always try to work with you to design and deliver effective intervention programmes that will develop your service users' resilience to risk and harm.
