

1.3 Questions to ask

Use the below questions, which draw on [DfE guidance](#), as part of your board's routine monitoring activities and to shape conversations with school leaders about behaviour policy and practice:

- Does the behaviour policy have clear objectives? Does it seek to create a safe environment in which all pupils can learn and reach their full potential?
- Do designated staff and leaders (some schools choose to assign a behaviour lead) understand their roles? Are the necessary resources in place to support them?
- How are school routines used to teach and reinforce the behaviours expected of all pupils?
- How are adjustments made to routines for pupils with additional needs?
- How are new staff inducted into the school's behaviour culture to ensure they understand its rules and routines?
- What regular training on behaviour do staff receive? How has this supported staff to fulfil their duties and functions as set out in the behaviour policy?
- What support do pupils receive during transition, including induction and re-induction into behaviour systems, rules, and routines?
- What support is provided to pupils with additional needs where those needs might affect behaviour?
- What preventative measures are in place to prevent child-on-child abuse?
- Do staff understand the rules around confiscation of banned items and the [screening and searching of pupils](#)?

Many of these themes are likely to feature in other conversations held in board meetings or with members of staff. For example, staff development should be an ongoing concern of which training in behaviour management techniques will be just one element. Managing pupil transition will also be an important consideration within wider conversations about recovery from the COVID-19 pandemic and disruptions to learning.
